Student Voice

Our school is located in the city center, surrounded by shopping streets, supermarkets, convenience stores, and secondhand shops—making daily life very convenient. Since most students use bicycles, there's no need to spend money on transportation, and part-time jobs are often nearby. With affordable rent and living costs, many students can save money or even pay part of their tuition from their earnings. On weekends, I often go out with friends and have made many from different countries. Every day is full of fun and discovery!
